

# TubeSpin® Bioreactor 50 - 20

## DESCRIPTION

50 ml tubes with membrane filter TPP TubeSpin® Bioreactor 50, 20 pcs.

## SPECIFICATIONS

Volume	50 ml
Number of tubes in set	20

## CAT. NUMBER

BS-010158-AK

50 ml tubes with membrane filter <br>  
TubeSpin® Bioreactor 50, TPP® <br> 20 pcs.

## ACCESSORIES

#### RTS-1

Including TPP TubeSpin®  
Bioreactor vessels 50ml, 20pcs  
Personal bioreactor

RTS-1 is personal bioreactor which utilize patented Reverse-Spin® technology that applies non-invasive, mechanically driven, low energy consumption, innovative type of agitation where cell suspension is mixed by the singleuse falcon ...

#### RTS-1C

Including TPP TubeSpin®  
Bioreactor vessels 50ml, 20pcs  
Personal bioreactor

RTS-1C is personal bioreactor which utilize patented Reverse-Spin® technology that applies non-invasive, mechanically driven, low energy consumption, innovative type of agitation where cell suspension is mixed by the singleuse falcon ...

[read more](#)

#### RTS-8

Including TPP TubeSpin®  
Bioreactor vessels 50ml, 20pcs  
Personal multi-channel bioreactor with non-invasive real time OD measurement

RTS-8 is a personal bioreactor that utilizes patented Reverse-Spin® technology that applies non-invasive, mechanically driven, low energy consumption, innovative type of agitation where cell suspension is mixed by the single-use ...

[read more](#)

#### RTS-8 Plus

Including TPP TubeSpin®  
Bioreactor vessels 50ml, 20pcs and sterile TPP TubeSpin®  
Bioreactor vessels, 50ml, with pH and O2 sensors, 10pcs  
Personal multi-channel bioreactor with non-invasive real time OD pH and pO2 measurement

RTS-8 plus is a personal bioreactor that utilizes patented Reverse-Spin® technology that applies non-invasive, mechanically driven, low energy consumption, innovative type of agitation where cell suspension is mixed by the ...
